

~~TOP SECRET~~  
Security Information

DIARY  
Executive Officer, O/DD/I

Thursday, 11 December 1952

1. Attended IAC Meeting.

2. Following the IAC Meeting, discussed with [ ] the notes that he takes during the meeting. He tells me that he has started his system within the past three weeks and that it is the plan of O/NE to file a transcript of these notes. This file would be available to DD/I on call. 25X1A9a  
AD/NE

3. Informed Bill Truehart of State that Mr. Becker is apparently on schedule and that the only change about which we have been informed is that he will arrive [ ] on the 14th instead of the 15th as formerly planned. 25X1A6a

4. [ ] of O/SI called to say that he has many of the answers to the questions posed to [ ] in the O/RR letter dealing with technical intelligence experts in [ ]. I put a tracer on this letter, found that it had not yet been despatched by FI and recalled all copies. These will now be returned to O/RR so that [ ] can discuss the matter. 25X1A6a

5. Mr. Papich (FBI) Liaison Officer (Code 175 X-515) called to see Mr. Amory and in the latter's absence I took Mr. Papich request. It was that Mr. Hoover is very much interested in the subject of flying saucers and it has been reported to him that the matter was discussed at the IAC Meeting of 4 December. Mr. Hoover had asked Papich to obtain as much information as we are willing to give him. I discussed with DD/I, who later discussed it, in turn, with General Smith. It was decided that O/SI would be authorized here to brief Papich with as much information as is available from O/SI to the other IAC members. I so informed [ ] who will get in touch with Papich early next week. NB: DCI has said previously that Papich is more or less like a three wheel 25X1A9a

6. Attended the O/CI dry run of the Eisenhower briefing in the Director's Conference Room.

7. Colonel J. C. King visited DD/I and inadvertently picked up some highly sensitive papers belonging to Mr. Sheldon when he left the office. After considerable telephoning, we located Colonel King at the Army Navy Club. I went with him to his office at Quarters "I", obtained the papers from him (he had not and he did not then read them) and returned them to the O/CI Watch Officer at about 7.30.
